After we returned to the workshop, I boiled some water to wash her body. Strangely enough, there was no foul smell, but the lack of hygiene was clearly obvious.

I should let it cool down a bit...

Maybe

Even when I took off her torn clothes in the bathroom, she didn't seem to react at all. And when I saw all the scars on her back, it was painfully obvious how she had lost all her emotions.

As I finished washing her body, I could clearly see the malicious scars on her white skin. In my head, I calmly thought of a recipe for the ointment, but my hands just kept trembling with anger as I changed her bandage.

Damn it...!
